Hire Smarter, Hire Faster

When successful businesses hire, they focus on one question: will this candidate contribute positively to our organisation? Assessing employability, or one's ability to find and retain a job, is the best way to answer this question.

Driven by the Hogan Personality Inventory, General Employability offers a ready-to-go screening solution that allows companies to determine the suitability of candidates for entry-level roles quickly and easily. In order to streamline the screening process, General Employability is condensed into a single page that includes a hiring recommendation, competency interpretation, interview questions, and more.
